

Program login: App.js coding

```
import React from "react";
import StyledButton from "./styledbutton";
function App()
{
    return (
        <div>
            <StyledButton>Login</StyledButton>
        </div>
    )
}
export default App;
```

styledbutton coding

```
import React from "react";
import styled from "styled-components";
const StyledButton = styled.button
`
    color:red;
    background-color:green ;
    &:hover
    {
        background-color:blue ;
    }
`
export default StyledButton;
```
