

## List with Inline css

```
import React from "react";
const Renderinglist={()=>
{
  const box=[
    {id:1,name:'Apple'},
    {id:2,name:'Grapes'},
  ]
  const style={
    color:'red'
  }
  return (
    <div color="red">
      <ol>
        {
          box.map((box,index)=>(
            <li style={style} key={index} id={index}>{box.name}</li>
          ))
        }
      </ol>
    </div>
  )
}
export default Renderinglist;
```
