Day-2;

App.js

```javascript
import React from "react";
const Renderinglist=()=>
{
    const box=[
        {id:1,name:'Apple'},
        {id:2,name:'Grapes'},
    ]
    return (
        <div>
            <ol>
            {
                box.map((box,index)=>(
                <li key={index} id={index}>{box.name}</li>
                ))
            }
            </ol>
        </div>
    )
}
export default Renderinglist;
```

Output

1. Apple
2. Grapes
